

# Abdul Muqsit

## Front End Developer

Islamabad, Pakistan • Amuqsit57@gmail.com

### ABOUT

As an aspiring entry-level front-end developer, I bring a solid foundation in key technologies, including React.js, React Native, HTML, and CSS. Proficient in creating interactive user interfaces, I'm eager to contribute to web and mobile application development. I'm prepared to collaborate effectively and maintain clean, organized code repositories. My passion lies in innovating visually stunning, user-centric digital experiences, and I'm committed to continuous learning and growth in this dynamic field. I'm excited to embark on this journey, eager to contribute my skills and fresh perspective to the world of web development.

### PROJECTS

[GitHub](#)

#### Real Estate Website

SEPT, 2023

- Spearheaded development of a dynamic real estate website using React.js, HTML, and CSS.
- Leveraged React libraries to enhance functionality and user experience.
- Delivered an interactive platform with advanced search, responsiveness, and secure transactions, redefining real estate interaction.

#### Management Systems

2021- 2023

- - Led the development of a versatile suite of management systems, employing React, MongoDB, Express, and related technologies.
- - Engineered efficient and scalable solutions customized for diverse business requirements.
- - Successfully integrated these systems, optimizing operations and enhancing overall productivity.

#### Budgeter

JULY, 2023

- - Developed a budget management app using Android Studio, serving as the project lead.
- - Utilized Java and Android libraries to optimize functionality and user experience.
- - Delivered a user-friendly app for effective financial tracking and management, showcasing proficiency in Android app development.

#### Eye Saver

SEPT, 2021

- Developed "Eye Saver" app using Android Studio to promote eye health.
- Implemented a notification system to remind users to take a break every 20 minutes of screen time.
- Contributed to user well-being by utilizing Android development skills to create a health-conscious mobile solution.
